GENERAL INFORMATION

The summer quarter is an integral part of the school year. The organization and administration of the summer school is on the same basis as that of the regular school year. Instruction is conducted by the regular staff with the assistance of visiting professors.

PURPOSE

In addition to regular undergraduate and graduate functions the purpose of the summer school is to offer in-service teachers an opportunity to renew their teaching certificates and to work on their degrees. It is possible for a student to complete a semester of work by entering on April 21. Students who desire a full quarter's work may enter on June 2. The dates for registration for a semester, quarter or six weeks period will be found listed in the calendar at the front of this bulletin.

The summer quarter also offers an opportunity for regular students to expedite their graduation by continuing their studies through the normal vacation period.

Students from other colleges and universities have an opportunity of securing special courses which they may need to complete their programs.

ADMISSION REQUIREMENTS

Former students of Mississippi Southern College who have maintained satisfactory records, persons who hold high school equivalency certificates, graduates of accredited high schools, and transfers from junior colleges are eligible for registration in the summer quarter.

Students who are in good standing at other colleges or universities are also eligible for admission. It is not necessary for a student from another college to present a transcript of credits unless he plans to become a candidate for a degree at Mississippi Southern College. Such a student may register as a special student. It is necessary, however, for a special student to present a certificate of good standing in the college from which he comes.

Admission is granted only on the basis of application. All students who have not been in attendance at Mississippi Southern College during the immediately preceding quarter must file applications for admission. The application form printed on the last page of this bulletin may be used for this purpose.

It is necessary for all entering freshmen to file with the Director of Admissions transcripts of their high school work or other acceptable evidences of eligibility for admission. It is necessary for all regular new students who have been enrolled at other institutions, and all regular former students of Mississippi Southern who have been enrolled at another college or university since being enrolled at Mississippi Southern College, to file with the Director of Admissions complete transcripts of work done elsewhere. All transcripts should be sent to the Director of Admissions well in advance of registration dates so that permits to register may be prepared before students arrive on the campus.

ACADEMIC REQUIREMENTS

The general regulations governing Mississippi Southern College as set forth in the regular catalog of the college will prevail during the summer school. Students who need assistance in the planning of their work are invited to counsel with their major professor or with one of the administrative officers.

CERTIFICATES TO TEACH

Teachers may secure a renewal of their license by completing eight quarter hours of work. Individuals desiring to have their license renewed should request the Registrar to send a transcript of their credits to the Division of Certification, State Department of Education. The transcript must be accompanied by the renewal fee of \$1.00.

PRE-PROFESSIONAL CURRICULA

Pre-professional curricula are available for students interested in Medicine, Dentistry, Law, Engineering, and Pharmacy. Students who are planning to enter these fields should consult the special advisers for the fields.

RELIGIOUS AND SOCIAL OPPORTUNITIES

At Mississippi Southern College social and religious activities are considered a vital phase of student life. Activities are planned that are as varied and diversified as the interest of the student body may justify.

The religious organizations are especially anxious to fill the needs of members of their particular denominations and to contribute to campus and community life as a whole through the Student Christian Federation. At the beginning of the summer quarter the Federation sponsors an all campus party for students and faculty. Vesper services on Wednesday evenings are under the auspices of the Student Christian Federation.

Social organizations on the campus plan informal parties which add much to the social life at M.S.C. The Student Council schedules events of interest to all students.

A planned intramural athletic program will be available for both men and women. This will include late afternoon softball games, golf, tennis, swimming, and pingpong. A water show with special swimming and diving events will be held in July.

Outstanding chapel speakers and musical programs will be scheduled.

The two traditional all-student events are the barbecued chicken picnic during the first part of the summer quarter and the watermelon cutting usually held in July.

Groups arrange educational tours to nearby points of interest. There are also opportunities to arrange for deep sea fishing trips.

ANNUAL SUMMER SCHOOL PICNIC

PLACEMENT BUREAU

Mississippi Southern College maintains a year-round placement bureau for the benefit of its graduates and as a service to employers. A full-time director is employed to carry on the work of placement, and everything possible is done to assist applicants in finding satisfactory positions.

Students and graduates who wish to be notified of job listings in business, government, industry, and in school and college teaching, are urged to register with the placement bureau as soon as they know they will be available for positions. All applications are processed immediately so that they may be presented to employers looking for personnel.

It is advisable for all graduating seniors to register with the bureau in order that they may have records on file for future use if they are not presently interested in the placement services.

STUDENT EMPLOYMENT

During the Summer Quarter, the college will be able to give part-time employment to a number of students. Students who are interested in earning part of their expenses should file an application with the Director of Student Welfare of the college, prior to the opening of the Summer Quarter.

DEMONSTRATION SCHOOL

In cooperation with the city schools of Hattiesburg, a complete Demonstration School will be operated at the college during the Summer Quarter. Facilities for observation and practice teaching will be available from the first grade through the senior year of high school.

THE READING CLINIC

The Reading Clinic at Mississippi Southern College is nationally recognized. The clinical unit, consisting of offices, individual teaching rooms, psychological testing room and observation rooms, is housed on the second floor of College Hall. The psychological testing room is equipped with "one-way" glass for the convenience of students doing observation in diagnostic and remedial reading. Superintendents may arrange for their teachers to visit and observe. Also, they may send their pupils for examination.

The equipment is modern and the best obtainable. It includes the Telescopical, Orthorator, Oscilloscope, Audiometer, Flashmeters, Rate Readers, Tape Recorder, Cheiroscope, Metronoscope, Ophthalmograph, Film Projector and the Luckiesh Visibility Meter. Teachers will find an excellent professional library and an adequate library of easy and interesting books for pupils with reading difficulty.

The objectives of the Reading Clinic are: to administer psychological and educational tests for diagnostic purposes; to retrain children and adults who are retarded in educational status; to train teachers in scientific diagnosis and remedial reading; to execute research in the objective study of personality and guidance of pupil life; to make surveys in these areas and serve and render consultative services in education and psychology. Approximately 4000 children have been examined during the last two years in school surveys conducted throughout the state.

Children may be referred to the clinic by superintendents, teachers, parents, eye specialists and other agencies. The fee for a complete educational diagnosis and a program of remedial procedures and suggestive

materials of instruction is \$10.00 or a proportionate part based on ability to pay.

Daily instruction is given to out of town and local children throughout the school year and during the summer months. If a child is enrolled in the clinic for individual remedial instruction the fee is \$20.00 per month. As a rule it is desirable to have a child come to the clinic five periods per week. The total number of hours of remedial training required by a child will vary with the extent and type of difficulty exhibited.

An increasing demand for teachers of reading, remedial reading, and reading consultants has brought about the extension of courses to meet this demand. Write to the college for the Reading Clinic catalogue.

SUMMER THEATRE

It has been the custom of the Division of Speech Arts to produce at least one play or a program of plays during the summer quarter. When plays are presented, all students with talent and interest in dramatics are invited to participate.

SUMMER RADIO

The Division of Speech Arts will continue radio programs which have been in progress during the regular academic year.

THE STUDENT SPEAKER'S BUREAU

The Student Speaker's Bureau is an organization within the Speech Arts Division. It provides an outlet for student talent by supplying individual and group speaking experiences. Speech Correction, Interpretative Reading, Dramatic Reading, Public Speaking, Discussion, Debate and Parliamentary Law are some of the fields encompassed. Interested students are invited to take part in the program.

BAND, CHORUS, AND LITTLE SYMPHONY

A special chorus will be organized during the summer quarter as well as a special concert band and Little Symphony. The choir, band and orchestra will meet for regular rehearsals one evening each week. Special concerts will be given by these organizations during the summer session.

THE LIBRARY

The Joe Cook Memorial Library will be open from 7:15 A. M. to 9:45 P. M. on Monday through Thursday and from 7:45 A. M. to 5 P. M. on Friday and Saturday.

BOOKSTORE

The college bookstore is well stocked with textbooks, art materials, and all other supplies needed by the student.

STUDENT HEALTH SERVICE

The Student Health Clinic is available to every regularly enrolled student. One of the college nurses is on duty at all times.

A college physician is available to students for consultation at the college hospital during his regular office hour. Both college physicians are on call.

LIVING ACCOMMODATIONS

The college has available dormitory accommodations for approximately a thousand students. If you desire a room in the dormitory you should fill in the application for admission and mail it to the Director of Admissions with the \$8.00 room reservation fee. Room reservation fees will be credited to your account. No room reservation deposit can be refunded unless the reservation is canceled ten days prior to the opening of the quarter for which the reservation is made.

Rooms are equipped with the following furniture: Two or three single beds with comfortable inner-spring mattresses, a dresser, a chest of drawers, lavatory, chairs, and a study table. Students must furnish all linens, bed covering, pillow, and curtains for windows and closet doors. Dormitories are cooled by attic fans.

A limited number of trailers, houses, and apartments are available for married Veterans of World War II on the campus.

If the dormitories are filled, living accommodations for women students outside the dormitories must be selected from the list approved by the college authorities.

All students not living in their own homes, whether rooming in the dormitories or in private homes or rooming houses, are subject to the regulations, control, and supervision of the college. The college uses its efforts to safeguard such students, but no responsibility can be assumed.

SENIOR WOMEN'S DORMITORY

SPECIAL EVENTS FOR THE SUMMER

THE READING CONFERENCE

In connection with the program in the Reading Clinic, the annual Reading Conference (Education 104-A, B, C, and 534) will be conducted the week

DEMONSTRATING VISUAL SCREENING TO TEACHERS

of June 9. Outstanding authorities in the fields related to the work in the Clinic present papers, lead discussions, give demonstrations, and suggest school planning in the fields of their specialization. Dr. Paul Witty of Northwestern University, Dr. Matthew Luckiesh, former Director of the General Electric laboratory and Mr. R. C. Hamilton, Educational Manager of the Keystone View Company are some of the eminent authorities who will participate in the coming conference. The faculty of the Demonstration School and visiting technicians teach demonstration lessons in line with the general theme of the conference; observation of these lessons is a regular feature of the program. The Reading Conference may be taken three times for undergraduate credit. Graduate students may arrange for graduate credit. Teachers who have had the Reading Conference previous to this year should enroll for Education 104-B or C.

CAMPUS RESIDENCE FOR READING CLINIC CHILDREN

Reading retraining in residence on the college campus is offered during the summer months. Parents asked for a residence school for reading to which they could send their children during the summer. That request was met beginning with the summer quarter 1950 and is now a summer feature. The Residence School provides a wholesome environment for the children. They are under 24 hour supervision just as they would be in a camp situation. In addition to the recreation and convenience offered such children on the college campus they also have the benefit of close coordination between the Reading Clinic and the instruction which they receive at the Demonstration School. They have opportunities to attend a number of entertaining performances scheduled during the summer session. Write to the college for the Reading Clinic catalogue.

COTTAGE LIFE AT THE RESIDENCE CLINIC FOR CHILDREN

SUMMER CONFERENCES FOR SOCIAL STUDIES TEACHERS

(History 192a)

A series of six afternoon and evening conferences on illustrative materials from Mississippi for teaching the social studies will be sponsored again by the Division of Social Studies during the first six weeks of the summer session, 1952.

The series may be elected for two hours' credit as History 192a. Visitors not interested in credit will be welcome.

Many speakers will be from off the campus. They will include Mississippi historians, political leaders, and specialists in different social studies fields.

Materials presented will be different from those presented in 1950 and 1951, and the series may be taken for credit for the second time.

GEOLOGY FIELD CAMP

The Geology Department announces a three week Field Course immediately following the Summer Quarter. This course is designed to include visits to and study of some of the classic New York and Pennsylvania rock sections which have become standards of American Geology.

The work will include field methods, instrumentation, stratigraphy, structure, paleontology, physiography, sedimentation, and glacial geology.

For further details contact the Geology Department.

THE INSTITUTE OF LATIN AMERICAN STUDIES

The principal aim of the Institute of Latin American Studies is to foster and promote better understanding and relationships between the Americas, in other words, to further the Good Neighbor Policy. To implement this aim the Institute offers two general types of courses, one for Latin American students who come to the United States for the purpose of learning English and United States culture and customs. These are called orientation courses for Latin Americans. The second general type of course is organized for the purpose of offering training to North American students who wish to prepare themselves for work or a career in inter-American affairs. These courses are called Latin American studies. For further information concerning the Institute of Latin American Studies ask for the Institute bulletin.

Each quarter the Institute offers a twelve-week orientation course with classes in the English language, conversation, composition, grammar, and culture and customs of the United States. These courses are attended by business and professional people, students, and international visitors and others, all of whom represent the best of homes and families in Latin America.

During the months which comprise the summer vacation for the schools of Latin America (December, January and February) the Institute offers a special eight-week course for Latin American teachers of English. This course offers more advanced training of a technical nature for the in-service training of teachers of English.

While registered in the Institute the Latin American students are taken on excursions to various places of historic and scenic interest in the State of Mississippi. These excursions serve to give the students an insight into United States civilization. In addition, various clubs, business firms and

civic organizations entertain the students with trips, programs, banquets and other activities. The Institute also has a regular organized social program for these students.

The student who is interested in inter-American affairs will find many opportunities for study at Mississippi Southern College. The various departmental and divisional offerings in this field have been coordinated and developed into several inter-departmental curricula providing the following courses or degrees:

- I. The B.A. in Latin American studies with emphasis on culture and history.
- II. The B.A. degree in Foreign Service.
- III. The B.A. degree with a major in Foreign Trade.
- IV. The B.A. degree with a major in economics and related fields, with a minor in Latin American studies.
- V. A two-year course for secretary-interpreters or receptionists specializing in inter-American relations.
- VI. A one-year intensive course in Latin American studies for graduate students, business men, professional men, and technicians.

In addition to the other fields of study, the numerous Latin American students on the campus constitute a natural laboratory for the study of Spanish for those who intend to be teachers of Spanish. The value of the laboratory is enhanced by the constant and eager intermingling of both groups of students.

WORKSHOP FOR SCHOOL LUNCH MANAGERS

The fourth annual Workshop for School Lunch Managers will be held July 14-26.

The purpose of this workshop is to contribute to the training of lunch-room managers so that they may provide every school child with low cost, adequate, well-planned meals, properly cooked and attractively served.

Workshop groups, and discussions are planned. Topics include food selection, purchasing and preparation, organization and management, care and use of equipment, sanitation, record keeping, and training employees.

EDUCATIONAL WORKSHOP

For the past seven years Mississippi Southern College has operated educational workshops during the spring and summer quarters in numerous off-campus locations. In recent years emphasis has been put on effective classroom teaching, and enrollment has been largely restricted to courses in teacher education and specialized education.

Last year nine workshops were conducted by Mississippi Southern College, serving 252 teachers and administrators in thirty counties.

In 1952 communities may be served provided a sufficient number of persons ask for a workshop well in advance of the opening date and if it is found that these persons can not better be served on the campus.

Information on organization, registration, credits, etc., will be gladly furnished if you will address:

DIRECTOR OF WORKSHOPS
MISSISSIPPI SOUTHERN COLLEGE
HATTIESBURG, MISSISSIPPI

GULF COAST RESEARCH LABORATORY

The Gulf Coast Research Laboratory, located at Ocean Springs, Mississippi, will be open for graduate work during the entire summer of 1952. During the second term of our summer quarter, it will be open to graduate and under-graduate students. A student will be able to earn nine quarter hours during the last term at the Gulf Coast Research Laboratory. Credits for work at the Laboratory are recognized by all the senior colleges of Mississippi, and, therefore, throughout the United States. Great improvements have been made in the physical facilities provided for students at the Laboratory during the last year. Some four different laboratories are available for graduate and under-graduate work, and one laboratory in a concrete building will be devoted entirely to research. Dr. A. E. Hopkins, an outstanding authority on the oyster and marine problems in general, has been employed on a full time basis for work at the laboratory.

All majors in biology should plan on spending at least six weeks at the Laboratory before graduation, where they will have the opportunity to study the varied and highly interesting fauna and flora of the semi-tropical waters of the Gulf of Mexico, the outlying islands, and coastal area. Those who plan to go into graduate work may find a wide variety of problems awaiting solution which would qualify as a research problem for either the Master's or Doctor's degree.

At the Gulf Coast Research Laboratory students will have the opportunity to work under the direction of professors who have done specialized work on such forms as fishes, amphibians, reptiles, crustaceans, algae, and bryophytes. The fauna and flora of this region offer to the biologist practically a virgin field of investigation. A large amount of pioneer work needs to be done there within the next few years. Mississippians should prepare themselves to do this original work in this part of our state. Opportunities for research in biology at the laboratory are practically unlimited.

Fees for the courses given at the laboratory during the summer of 1952 will be found listed under the course descriptions below. Veterans who have

ARTS AND CRAFTS EXHIBIT

not used up their allotment for the year may continue to use financial aid afforded by G. I. Bill while in residence there.

Geology majors and graduate students will be able to earn four quarter hours in Marine Sedimentation after the close of the summer term at Mississippi Southern College.

Courses to be offered at the Gulf Coast Research Laboratory in the summer of 1952 listed according to number in the Mississippi Southern catalogue are:

Biology 152—Field Botany. Four quarter hours. Laboratory fee—\$18.00.

Biology 153—Marine Zoology. Nine quarter hours. Laboratory fee—\$30.00.

Biology 155—Cryptogamic Botany. Four quarter hours. Laboratory fee—\$18.00.

Biology 156—Fishes of the Gulf. Six quarter hours. Laboratory fee—\$30.00.

Geology 154—Problems in Marine Sedimentation. Four quarter hours. Laboratory fee—\$18.00.

THE GRADUATE DIVISION

(A special bulletin is available on request)

One of the primary functions of Mississippi Southern College is to prepare teachers, supervisors, and administrators for all branches of public school service. The graduate curriculum is intended to meet the needs of teachers in the elementary and secondary schools and junior colleges as well as to provide an organized program of training for school administrators and supervisors, and advanced music work.

The student who pursues graduate work broadens his professional outlook and academic knowledge, receives additional professional training, and familiarizes himself with techniques of research. The student must manifest ability to collect and evaluate data and must be able to see the implications of his conclusions in relation to other fields of human interest and study.

The Master's degree in Education will be regarded primarily as an extension and broadening of the professional education received on the undergraduate level with particular emphasis upon the fields of study in which the student is interested. The goal sought is the improvement of classroom instruction and/or school administration and supervision.

The ultimate aim is the fusion of the professional and subject-matter training of maximum benefit to the particular student.

The Master's degree will be conferred on those meeting the requirements in the field of Education, with emphasis in five particular fields: School Administration and Supervision, Secondary Education, Secondary Education with Emphasis on Subject Matter Fields, Elementary Education, Elementary Supervision, and Health and Physical Education. Those majoring in Secondary Education may take minors in Biology, Commerce, English, Guidance, History, Mathematics, and Speech Education. For those who wish to specialize more in subject matter fields, the Secondary Education Major will permit majors in the following teaching fields: Biological Sciences, History or the Social Studies, Literature, Mathematics, Speech Education and Special Education.

BUSINESS REGULATIONS

Announcements concerning expenses, and furnishings are subject to change without notice and may not be regarded as binding obligations of the college. In time of changing conditions, it is especially necessary to have this definitely understood.

Should a student withdraw three days after date of registration all fees will be refunded.

Should a student withdraw for any reason prior to mid-term of any quarter fifty (50) per cent of Incidental Fees will be refunded and pro rata percentage of board, room, and laundry will be refunded.

Should a student withdraw after mid-term of any quarter no part of Incidental Fees will be refunded, but a pro rata percentage of board, room, and laundry will be refunded.

Special or Laboratory Fees will not be refunded after a student has been in attendance for three days.

All students, faculty, officers and employees rooming in dormitories are required to take their meals in the college cafeteria. Others who take part of their meals in the cafeteria are charged per meal.

No deduction in living expenses is made for an absence of less than two continuous weeks, and then only when the absence is necessary and is reported to the Secretary's office five days in advance. No reduction of board is made on account of late entrance.

No lesson in music or laboratory course is given until fee is paid and receipt presented to instructor.

While no deposit is required for loss or damage any amount charged to a student must be paid before examinations are permitted.

Graduation fee is payable at time application is submitted. This fee is not refundable.
